From the Player Information screen, enter the information necessary for each player. The items in red are required and data will not be accepted until the information is provided.

The Player Information screen requests information that is needed for all NCVF purposes, including the Club Championship. Some of the information will be printed in the programs and if it isn't provided, it will be left blank. We encourage all Team Reps to get the information so that we have it and keep the information accurate.

The information in the screen is for teams that are on the semester system. See the next screen if your team is on the quarter system or if you have players that are former NCAA Varsity Players. Additional information will be requested if the aforementioned items are necessary.

If the player is a former NCAA Varsity Player, enter the number of years that the player participated as a NCAA Varsity volleyball player.

If your institution is on the quarter system, both Winter quarter hours and Spring quarter hours are required. Players must be registered for both to be eligible to participate in NCVF league play.

The NCVF does not provide personal information to third party vendors. Players must opt in to receive third party information from USA Volleyball as well as the NCVF. Each player must decide whether receiving information from third parties is acceptable.

If players are currently USAV members, select the USAV Region and enter the membership number. It is important that we gather this information. The NCVF must pay additional fees for members that are not currently USAV members.

An Excel spreadsheet is available for Team Reps to use to gather information from individual players. A pdf copy is also available for download that may be given to each individual player.
